Overstock validation ensures that we are fit to pick for our shoppers – leading to On Time and In Full orders for our customers.

# Improving PreSub Together

Cost Inventory App

Cost Inventory App coming soon to Connected Associate Devices.

This is critical to PI Accuracy which ensures fresh items are transactable for our online customers.

# Improving PreSub Together

Top Stock on First Walk

Top Stock location is critical for shoppers to be able to find items on the first walk to fill the basket.

Additionally improving KPI's such as FTPR as well as PreSub.

# Improving PreSub Together

## Missing Location Report

Working the Missing Location Report ensures that items are located and transactable for our online customers.

It also helps our shopper's efficiency filling orders On Time and In Full.
